**Re: In the Matter of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

Broadband has been working for the public for a long time. Why do we want large companies such as ATT and Verizon to monopolize the internet?

I would like to have the option to choose from various providers that would control the cost of internet and phone services, rather than a few dictating the price.

Currently, I am using a competitive DSL and phone service, that I would like to remain with. Please do not eliminate the competition telecom.

Thank you for your attention.
